S. No.	Page No / Para No	Contents	May be read as
01.	6 / 3.2.8	The Service Provider shall raise bills on monthly basis as per the CGHS package rates deducting the discount offered by him in the prescribed formats of ESIC.	The Service Provider shall raise bills on weekly basis as per the CGHS package rates deducting the discount offered by him in the prescribed formats of ESIC.
02.	11 / 6.18	Service Provider should make alternative arrangements in the event of breakdown of the services at his own cost. In case the Service Provider fails to make such arrangement, the patients shall be referred to ESI empanelled hospitals and damages if any, claimed by the patient, shall be borne by the Service Provider.	Service Provider should make alternative arrangements in the event of breakdown of the services (individual dialysing machine) at his own cost within 7 days . In case the Service Provider fails to make such arrangement, the patients shall be referred to ESI empanelled hospitals and damages if any, claimed by the patient, shall be borne by the Service Provider.
03.	12 / 6.29	On an average 2.5 patients / day / machine is optimum utilization (excluding dialysis machines for sero +ve patients). If the utilization is below this then all new referred cases	On an average 3 patients / day / machine is optimum utilization (excluding dialysis machines for sero +ve patients). If the utilization is below this then all new referred

		to the center must preferably be provided dialysis on the same day. The old cases will be attended as per dialysis cycle. If any ESI patient is not attended within two days of reporting to the dialysis centre then the patient will be referred to the ESI tie-up hospital at the cost of Service Provider.	cases to the center must preferably be provided dialysis on the same day. The old cases will be attended as per dialysis cycle. If any ESI patient is not attended within two days of reporting to the dialysis centre then the patient will be referred to the ESI tie-up hospital at the cost of Service Provider.
04.	13 / 7.3	Free Electricity, water and Centralized Gases supply /oxygen cylinders (if available) will be provided to the handed over portion of building as provided to the rest of the Hospital. No fresh fittings or pipelines will be laid down by the Hospital.	Free Electricity, water and Centralized Gases supply (available at ESIS Hospital, Coimbatore only) will be provided to the handed over portion of building as provided to the rest of the Hospital. No fresh fittings or pipelines will be laid down by the Hospital. Oxygen Cylinders (B type) will have to be procured by the Service Provider at his own cost in Hospitals where Centralized Gases supply is not available.
05.	14 / 7.5	Services of CSSD and Laundry will be provided free of cost to the Service Provider if already available at the Hospital. In case of any break down of these services for the whole hospital, the Service Provider will have to make his own arrangements for the same at his own cost. In case the Hospital makes some tie up arrangements for these services, the Service Provider may use the same for him on the same terms and conditions of payments, at the cost of Service Provider. Hospital will not be liable for any loss or compensation in this regard. No payment will be done to the Service Provider for making his own arrangements.	Services of CSSD (available at ESIS Hospitals – Ayanavaram, Coimbatore and Madurai) and Laundry (In-house Laundry available at ESIS Hospitals, Coimbatore and Madurai only) will be provided free of cost to the Service Provider if already available at the Hospital. In case of any break down of these services for the whole hospital, the Service Provider will have to make his own arrangements for the same at his own cost. In case the Hospital makes some tie up arrangements for these services, the Service Provider may use the same for him on the same terms and conditions of payments, at the cost of Service Provider. Hospital will not be liable for any loss or compensation in this regard. No payment will be done to the Service Provider for making his own arrangements.

06.	17 / 10.2	<p>a) Technical Approach and Methodology and work plan: Summary work plan to set up haemo-dialysis center in the available hospital space giving room wise details of alteration/modifications in the building structure if required. Details of the use of the rooms and space like provision of rooms for ward, rooms for storing used and unused dialyzers and processing rooms for reusable ones separately for sero-positive and sero-negative cases, linen store, drugs store, reception, nursing area, procedure room, laboratory and toilets etc. should be intimated. Number of machines to be installed should be mentioned. Provision for treatment room for emergencies arising during dialysis with all emergency equipment should be informed.</p>	<p>a) Technical Approach and Methodology and work plan: Summary work plan to set up haemo-dialysis center in the available hospital space giving room wise details of alteration/modifications in the building structure if required.
