8	The detector should have Automatic x-ray Exposure (AED) Technology, without requiring any physical/tethered connection with x-ray generator
9	The detector should be capable of doing , radiography without bucky and lateral supine (Trans lateral) radiography
10	The detector offered should be light in weight less than 3.5 kgs (battery included).
11	The detector must be capable of working on both wired as well as wireless mode
12	The battery must be of latest lithium ion type. Required numbers batteries along with battery charger should be provided. Company must replace batteries free of cost for next 3 years. The battery offered should be replaced irrespective of charge cycle limitations. In case of inbuilt battery, detector manufacturer should replace battery or detector in case of any breakdown of battery. Kindly specify the battery type and life of offered model..
13	Detector offered should be capable of handling 150 or more exposures or 5 hours or more of operation in single full charge.
14	Detector offered should be capable of integrating with any x-ray system or mobile x-ray for extending its capabilities in future
15	Detector and console software should be from the same principal manufacturer.
16	Detector should be able to work in normal room temperature and humidity
17	Detector system should not require frequent calibrations on daily start up
18	Offered detector should have load bearing capacity of 170 Kgs or more
19	The detector should conform to Ingress Protection level 4 (ie., IPX 4) or more
20	The detector should have protective cassette cover for damage risk reduction
21	Bidder must offer warranty certificate in original issued by the original manufactures for FPD. The original manufacturer must also give an undertaking the guarantee to support during the entire life of detector
22	No wired integration with the existing X-ray machines in the Department of Radio diagnosis should be possible
C	Image processing subsystem and console
1	The DR console should be offered with latest high end image processing capability console software with RYZEN 3/5 cpu (or equivalent), 8 GB RAM or more and SSD of 128GB and with high resolution monitor of 19” or more, with 1920 x1080 or more display matrix
2	Selection of patient demography
3	Selection of anatomical parts to be x-rayed
4	Annotations should be possible
5	Preview of images in less than 4 seconds
6	Zooming, ROI, Image cropping and masking, automatic grid removal function
7	Soft tissue processing must be possible Full range of image processing tools should be possible and the system should be capable of configuring multi format images for DICOM printers
8	Local image storage must be possible
9	Should be capable of connecting 2 flat panel detectors simultaneously
10	Should be capable of connecting directly to the dry laser printer already available in the

	department
11	Should have capability to push images to locations of choice such as Workstations, PACS, DICOM printer, external storage device, etc
12	Should have CD/DVD archival facility and inbuilt DICOM viewer
13	Should be able to export images in PC format like jpeg, bit map etc
14	DICOM work list from RIS/HIS
15	Storage of 30000 images or more
D	Additional workstation
1	Multimodality workstation
2	The system should be offered with latest high end image processing capability software with RYZEN 7 (1700/1800) or equivalent with 8 GB RAM ddr4 3200mhz or more and SSD of 256gb or more and with high resolution medical grade monitor of 19” or more
3	Full range of image processing tools including CT and MRI images.
4	The workstation should be capable of configuring multi format images for DICOM printers
5	System should have facility to burn CD/DVD
6	Features like MWL (Modality work list), DICOM-3.0 compatibility and interfacing with other modalities should be possible
7	1 TB external hard disc storage
E	Networking
1	Easy integration and networking should be possible with any other existing/future networking including other modalities, HIS and RIS and PACS
2	Vendor should connect this with laser cameras already existing in the department, and with PACS in the future without any extra cost
F	Accessories
1	Dry laser camera 500 DPI or more with minimum 2 online trays capable of printing film of size 17x14, 11x 14, 10x12 & 8 x 10 inches. One packet of each size films to be provided
2	Lightweight LED x-ray viewer for 2 films of size 17”x14”, luminance adjustment, on/off control – 2 numbers
3	3KVA or more online UPS for providing minimum 30 minutes power backup for console, workstation PC and printer
4	2 set Godrej or equivalent computer table and revolving chair for the DR console and workstation.
G	Warranty/CMC
1	3 years onsite warranty from the date of satisfactory installation. Warranty of entire system including detector, computers and all accessories provided including third part items. The warranty charges should not be quoted separately otherwise the bid will be summarily rejected. Also the bidders should submit their quotes for subsequent 5 years on site CMC (entire system including detector, computers and all third party items supplied). The price comparison shall be made taking into account on base price and post warranty CMC.
2	95% uptime warranty/CMC should be given. In case down time exceeds 5%, penalty in the form of extended warranty/CMC, double the number of days for which the equipment goes out of service, will be applied.
3	Post installation QA (Quality assurance) test should be done
H	All companies must give original product data sheets confirming the specifications along with the tender. The compliance statement must be filled strictly under the heading given in the tender. Each specification corroborated in the compliance statement must give the page number where it is listed in the product data sheet. Incompletely filled/ambiguous information will not be considered
I	The principle manufacturer to give undertaking that in case of failure of Indian supplier to provide services of their quoted model, the principal manufacturer will provide service/spares during the warranty period and at least for 7 years after the expiry of the warranty period
J	Company should have well established after sales service network with 24 x 7 call login facility
K	Demo of the quoted model should Demo of the quoted model should be arranged in a place which should be nearest to the Institute and functional for at least 6 months.
